To the FCC:

Please be advised that I benefit from listening to satellite radio and its local traffic and weather channels. I am paying for these services now and I don't believe that it should be up to the NAB to dictate what I can and cannot listen to in my locale. Satellite radio provides variety and quality programming that is not available elsewhere. I respectfully urge you, the FCC, to reject the NAB's petition 04-160 and to support XM satellite radio's ability to provide the kind of programming that I demand and deserve.

Sincerely,  
Franklin South
